

PRADYUMNA G NADIGER

Vidyamanya Nagar, Bengaluru 560 091

+91 9480741543 pradyumnagnadiger@gmail.com linkedin.com/in/pradyumnagnadiger
github.com/pradyumnagn pradyumnagnadiger

Internship

InQore Systems

Mar 2025 - Present

Design engg

hybrid

- Currently working in the Raspberrypi pico Board designing team
- **Skills Enhanced:** DataSheet Design · KiCad

gerber.images

Nandi PowerTronics, Bengaluru

Jan 2024 - April 2024

Student Intern

Onsite

- worked as a PCB testing engineering
- hands on PCB masking, assembling, soldering, coating

Education

Dayanand Sagar College of Engineering, Bengaluru

2024 - 2027

Autonoums, Affiliated to VTU

Aggregate: 7.2 CGPA

Bachelor of Engineering in Electrical and Electronics Engineering

MEI Polytechnic, Bengaluru

2021 - 2023

Aided

Aggregate: 9.2 CGPA

Diploma in Electrical and Electronics Engineering

Projects

Smart Security System using IoT | Arduino uno

Ongoing

- * Smart security using Fingerprint, RFID and passkeys to unlock the door and a display for monitor.
- * about to add the camera module and microphone to analyse the emergency and to detect the irregularities.
- * Implimented in house practically.

Collection of RTL Codes | Verilog · RTL Design

Sep 2025

- * This hobby project includes a collection of RTL codes, featuring components such as flip-flops, adders, latches, multiplexers, encoders, ALUs, counters, RAMs, ROMs, and more.

github.com

Monitoring and Controlling the renewable energy using Iot | esp32

March 2025

- * Monitoring the voltage, temp and current of the solar panel using sensors.
- * Controlling the number of panels using relays.
- * Automated the sytem in dasboard and blynk application.

github.com

Development of Plasma Source for Seed Germination | Flyback T/F

Dec 2024

- * It is the 4th State of Matter.
- * Done for germinating the seeds which kills the bad bacteria and helps growing faster.

github.com

Technical Skills

Languages: Verilog · SystemVerilog · Assembly · Embedded C

Hardware Design & Synthesis: Xilinx Vivado/ISE

Software Development: EDA Playground · Simulink · SciLab · AutoCad · KiCad

Development Boards: RowerQube 20251-A0 · ESP32 and cam module · Arduino UNO

Technologies/Frameworks:LT spice · Matlab · Arduino IDE

Major Courses

CMOS Digital VLSI design, IIT Roorkee

Power System Protection and Switchgear, IIT Roorkee

AutoCad Electric, Udemy

Workshops/Conference

VLSI Conference 2026, VLSI Society of India

RTL Design and Verification using Verilog HDL, VLSI First

Electrical Switchgear and their Applications, DB Son

Extra Curricular

I actively play swimming, badminton, and football

I am passionate at veena, flute, and tabla

I regularly practice silambam and karate

Interest - Geopolitics.
